## Summary

As a Bachelor Student at INTI International University & Colleges, I am pursuing my passion for Computer Science and Web Development. I have a strong foundation in React JS, HTML, CSS, Javascript, and Material UI, and I am eager to learn new technologies and frameworks to enhance my skills and knowledge.

I have two years of experience as a React Front-End Developer, working on various projects for Founders Language School and the Department of Digitization of Agriculture of Uzbekistan. I have contributed to creating user-friendly, responsive, and interactive web applications, using React Hooks, Document Object Model (DOM), and analytical skills. I have also collaborated with cross-functional teams, clients, and stakeholders, delivering high-quality results and meeting deadlines and expectations.

I am a motivated, creative, and enthusiastic developer, who enjoys solving problems, creating solutions, and adding value to the industry. I am always looking for new challenges and opportunities to grow and improve as a professional. I am also a fantasy enthusiast, who loves reading, writing, and exploring different worlds and cultures. Let's connect and see how we can work together to achieve remarkable outcomes!

## Experience

### Freelancer

Freelance (Self employed)

Jan 2023 - Present (9 months)

### Frontend Web Developer

The Department of Digitization of Agriculture of Uzbekistan

Jun 2021 - Sep 2022 (1 year 4 months)

As a frontend web developer at The Department of Digitization of Agriculture in Uzbekistan, I have had the privilege of contributing to cutting-edge projects aimed at revolutionizing the agricultural sector. My role involves creating intuitive and user-friendly web interfaces that enable seamless interaction with classified agricultural systems and data.

Please note that due to the classified nature of the projects I've been involved in, I am unable to showcase specific examples of my work. These projects are accessible only to authorized personnel with the necessary permissions. However, I can assure you that my experience in developing secure and efficient web solutions in this sensitive domain has honed my skills in handling complex and confidential data with the utmost professionalism and dedication.

My work here has allowed me to apply my expertise in frontend development to support the digitization efforts that are poised to transform the agricultural landscape of Uzbekistan. I remain committed to delivering exceptional web experiences while adhering to the strict security and confidentiality standards required in this role.

## Web Application Engineer

Founders Language School

Nov 2021 - Mar 2022 (5 months)

## Education

### INTI

2022 - 2024

## Cambridge International College

High School Diploma

## General Secondary School 66

Sep 2011 - May 2021

## Licenses & Certifications

### Introduction to Cloud Development with HTML, CSS, and JavaScript - EdX

84f8f984fefa461498c237c7ca3691bc

### Responsive Web Design - freeCodeCamp

### JavaScript Algorithms and Data Structures - freeCodeCamp

### Front End Development Libraries - freeCodeCamp

## Skills

SASS • REST APIs • Cross-browser Compatibility • Teamwork • Single Page Applications • JSON Web Token (JWT) • Algorithms • Data Structures • Cloud Development • Problem Solving

## Honors & Awards

### Gold Medal - Ministry of Public Education of the Republic of Uzbekistan

May 2022

I'm thrilled to share that I've been honored with a Gold Medal for my academic performance, maintaining perfect grades from elementary school right through high school. It's a moment of immense pride and accomplishment for me.

Throughout my educational journey, I've poured my heart and soul into my studies, especially in the realm of Computer Science. This medal represents not just my grades but the countless hours of hard work and dedication I've invested in my education.

Being from Uzbekistan and currently studying in Malaysia, I've had the privilege of experiencing different cultures and educational systems. This diversity has enriched my learning experience and broadened my perspective.

My passion for the fantasy genre has fueled my creativity and imagination, which I believe has played a role in my academic success, especially in a field like Computer Science that often demands innovative thinking.

Receiving this Gold Medal is not just a recognition of my past achievements; it's a symbol of the bright academic future that awaits me. I'm excited to continue my journey, explore new horizons, and contribute to the world of Computer Science.
